

Federal law changes will impact your health insurance in 2026

Update your information and review your options before Open Enrollment starts

Under current federal law, effective January 1, 2026, you will no longer be eligible for federal Advance Premium Tax Credits, which means you will not be getting help paying for your health insurance premiums next year. If Congress acts before January 1, 2026, you may continue to qualify for this help paying for your premiums in 2026.

This expected change in your eligibility for 2026 means tax credit help will end for people who are earning above \$62,600 as an individual and above \$128,600 for a family of four.

2026 income eligibility for ConnectorCare due to Federal changes

You may qualify for help paying for coverage through the Health Connector if your household income falls into these ranges:

Household size	Eligible income range
1	\$15,650 – \$62,600
2	\$21,150 – \$84,600
3	\$26,650 – \$106,600
4	\$32,150 – \$128,600

Your options

If your information has changed – especially if your 2026 annual income is expected to be below the anticipated income limits for 2026 – you may be eligible for help paying for your coverage in 2026. You can also shop for an unsubsidized Health Connector plan for next year.
