

# All college graduates are required to have health insurance.

(Good idea.)

Apply online at  
**MAhealthconnector.org**

**You must have health insurance coverage when you graduate from college. If you plan to live in Massachusetts after graduation, you can get new coverage through the Massachusetts Health Connector.**

**The Health Connector can help you compare plans, get information, and choose the plan that's right for you.**

Through the Health Connector, you'll find:

- Health insurance plans with benefits like prescription drugs and visits to the doctor or hospital
- Dental insurance plans
- Ways to get low- or no-cost health coverage like ConnectorCare plans, tax credits, or MassHealth

If you qualify for help paying for health insurance coverage, you can apply and enroll at any time.

If you do not qualify for help paying for coverage, you will need to enroll within 60 days of losing your student health insurance plan or other coverage, or wait until the next open enrollment period.

Go to **MAhealthconnector.org** or  
call **1-877 MA ENROLL** (1-877-623-6765)
