February 12, 2015	At least one member in the household is receiving CarePlus benefits plus additional households from the Standard/Family Assistance category (excludes disabled individuals and members receiving Premium Assistance).  Approximately 168,000 households	March 29, 2015	April 17, 2015

**Please Note:**

- If MassHealth members have already submitted an application through the new HIX, then they will not need to complete a renewal.
- Approximately 120,000 households have already been renewed through streamlined renewals (Express Lane Eligibility for members receiving SNAP benefits and Department of Revenue matches). Households meeting criteria for Express Lane or DOR renewal are sent a notice telling them they have been reviewed automatically and that they do not need to respond to MassHealth unless they have changes to report.
- The above charts just detail a portion of the MassHealth population that will need to complete a renewal during the current state fiscal year (FY 2015), which ends on June 30, 2015. More renewals will be occurring in state FY 2016 (post-June 30, 2015).
- If MassHealth receives a member's application by the date they are told to reapply, the member will remain in MassHealth coverage until MassHealth processes the application.
